Fostering Economically Thriving Communities

GrantWorks has worked with economic development (ED) practitioners across the nation and is a leading provider in grant application and administrative services. Our ED staff have a combined 50 years of experience at federal, state, and local levels of government. Their specialized experience allows them to help you reach your community's ED goals.

We support projects that drive private investment and create jobs to position your community on a path to economic prosperity. **Partner with us to leverage our extensive ED and grant administration experience to help foster a thriving economy in your community.**

GW 20/20 Grant Management Portal

GrantWorks offers technical assistance throughout the project life-cycle as well as complimentary access to a customizable grant management portal system, GW 20/20, to simplify the complexities of project management

Economic Development Grant Administration Services

GrantWorks' Economic Development Division offers decades of Federal and State Grant Management, Project Management, and 2 CFR 200 compliance experience to help administer the critical funding needed to drive your economic development projects. We provide in-house grant management services that ensure compliance through program and/or subrecipient monitoring and reporting so you can closeout audit-ready projects with confidence.

Grant Program Management

Our empowered employees and executive team will work with you to make decisions in your best interest, to include guidance on eligible costs and documentation services to assist awardees and subrecipients of eligible expenses.

Subrecipient Management

GrantWorks will act as a point of contact for subrecipients to send and receive updates from the grantee. We can also assist with RFP, RFQ, RFI and/or contract agreement templates that are needed to procure services by the subrecipients.

Financial Guidance

We assist grantees with reporting subrecipient metrics to submit in the grants management system and GRPA. Our expert team also provides support for SF-42 financial reporting, budget amendments, disbursements, and subrecipient invoicing.

Compliance & Project Closeout

We adhere to all Federal 2 CFR 200 compliance measures throughout the life of the grant, including timeline tracking of milestones & administrative and process monitoring.
